

HP LaserJet 1020 - lifecycle calibration

A4 portrait / actual size / one page per submission

Four cross centers: 20 mm from their nearest paper edges.

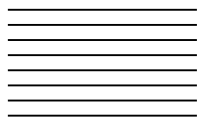

Cross spans: 170 mm horizontally; 257 mm vertically.

100 mm ruler: measure between the two end ticks.

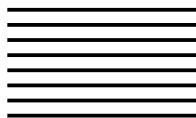

Fine line checks: evenly spaced, no missing or broken lines.

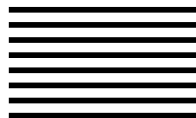

0.25 mm

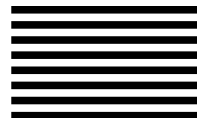

0.5 mm

0.75 mm

1 mm

Density ramp: smooth blocks, no discontinuities.

Readable text: ABCDEFGHIJKLMNOPQRSTUVWXYZ 0123456789

Readable text: abcdefghijklmnopqrstuvwxyz 0123456789

Scale error (%) = $\text{absolute}(\text{measured ruler length in mm} - 100)$.

Position error: $\text{largest absolute}(\text{edge-to-cross-center mm} - 20)$.

Measure both nearest edges at every cross; use maxima over all pages.

Synthetic fixture only. No firmware, identities, or private job content.
